INDEX TO VOLUME XV

PAGE

Abdominal injury due to blunt force; difficult diagnosis; Henry P. De Forest 272

Acid production, studies of; the varying susceptibility of children to acidosis; Margaret Sawyer, F. A. Stevens and L. Baumann 1

Acidosis, varying susceptibility of children to; Margaret Sawyer, F. A. Stevens and L. Baumann 1

Alley, A. G.: Observations on the nutrition and growth of new-born infants. Analysis of three hundred clinical charts 408

Anatomy, physiology and pathology of childhood, recent work in. Progress in pediatrics; James B. Holmes 278

Appendicitis, lymphatic disease in children simulating; Harold deB. Barss 421

Armstrong, Edward K.: Progress in pediatrics. Review of communicable diseases 29

Atropin, the curative action of, on certain manifestations of the hypertonic infant; Sidney V. Haas 323

Barss, Harold deB.: Lymphatic disease in children simulating appendicitis 421

Bass, Murray H.: Cutaneous and intracutaneous tuberculin tests in infants and children 313

Baumann, L.: Studies of acid production. The varying susceptibility of children to acidosis 1

Blackfan, Kenneth D.: Intraperitoneal injection of saline solution 19

Books Received: L. W. Hill and J. R. Gerstley; C. G. Kerley 434

Bosworth, A. W.: Studies of infant feeding. Digestion and absorption of fats. Calcium in its relation to the absorption of fatty acids 397

Bowditch, H. I.: Studies of infant feeding. Digestion and absorption of fats. Calcium in its relation to the absorption of fatty acids 397

Calcium in its relation to the absorption of fatty acids. Digestion and absorption of fats. Studies of infant feeding; A. W. Bosworth, H. I. Bowditch and Louise A. Giblin 397

Cerebrospinal fluid, xanthochromia of, with complete coagulation in tuberculous meningitis; D. B. Leitch 348

Communicable diseases, review of. Progress in pediatrics; Edward K. Armstrong 29

Conjunctivitis, phlyctenular, etiology of; W. Stanley Gibson 81

Current pediatric literature 77, 159, 243, 309, 362, 427

Cystoscopy, surgical diseases of the urinary tract in children, with special reference to the value of cystoscopy; A. Hyman 116

DeBuys, L. R.: Effect of body posture on the position and emptying time of the stomach 190

De Forest, Henry P.: Abdominal injury due to blunt force; difficult diagnosis 272

De Lange, Cornelia: Familial splenomegaly 249

Diarrhea, summer, evidence that it is an infectious enteritis; John Zahorsky 413

Emerson, William R. P.: Treatment of enuresis without drugs, with a report of thirty-four consecutive recoveries 339

Enteritis, infectious, evidence that summer diarrhea is an; John Zahorsky 413

Enuresis, treatment of, without drugs, with a report of thirty-four consecutive recoveries; William R. P. Emerson 339

PAGE

Fats, digestion and absorption of. Calcium in its relation to the absorption of fatty acids. Studies of infant feeding; A. W. Bosworth, H. I. Bowditch and Louise A. Giblin 397

Foote, John: Pylorospasm and congenital pyloric stenosis, probably the earliest reported case 351

Genito-urinary diseases of children, review of recent literature on; Progress in pediatrics; Lewis Webb Hill 141

Gerstley, Jesse R.: Study of the effect of hunger on nervous irritability .. 336

Giblin, Louise A.: Studies of infant feeding. Digestion and absorption of fats. Calcium in its relation to the absorption of fatty acid 397

Gibson, W. Stanley: Etiology of phlyctenular conjunctivitis 81

Haas, Sidney V.: Hypertonic infant, the curative action of atropin on certain of its manifestations 323

Henriques, Adolph: Effect of body posture on the position and emptying time of the stomach 190

Hill, Lewis Webb: Progress in pediatrics. Review of recent literature on the genito-urinary diseases of children 141

Holmes, James B.: Progress in pediatrics. Recent work in anatomy, physiology and pathology of childhood 278

Hoskins, R. G.: Study of the effect of hunger on nervous irritability 336

Hunger, study of the effect of, on nervous irritability; Jesse R. Gerstley and R. G. Hoskins 336

Hydrocephalus of poliomyelitis; Joseph G. Regan 259

Hyman, A.: Surgical diseases of the urinary tract in children, with special reference to the value of cystoscopy 116

Hypertonic infant, the curative action of atropin on certain of its manifestations; Sidney V. Haas 323

Infant feeding, studies of. Digestion and absorption of fats. Calcium in its relation to the absorption of fatty acids; A. W. Bosworth, H. I. Bowditch and Louise A. Giblin 397

Intestinal intoxication in infants. Importance of impaired renal function; Oscar M. Schloss 165

Intestinal obstruction, congenital, with report of a case; A. V. St. George 354

Kidney function, importance of impaired, in intestinal intoxication in infants; Oscar M. Schloss 165

Kidney injury, rare; Henry P. De Forest 272

Kidney, polycystic, in an infant; L. T. Royster 196

Leitch, D. B.: Acute syphilitic meningitis in an infant twelve months old 201

Leitch, D. B.: Xanthochromia of the spinal fluid with complete coagulation in tuberculous meningitis 348

Lymphatic disease in children simulating appendicitis; Harold deB. Barss 421

Maxcy, Kenneth F.: Intraperitoneal injection of saline solution 19

Meningitis, acute syphilitic, in an infant twelve months old; D. B. Leitch. 201

Meningitis, tuberculous, xanthochromia of spinal fluid with complete coagulation in; D. B. Leitch 348

Michael, May: Progress in pediatrics. Résumé of literature on tuberculosis in children, 1917 205

New-born infants, observations on the nutrition and growth of. Analysis of three hundred clinical charts; Walter Reeve Ramsey and A. G. Alley 408

Nutrition and growth of new-born infants, observations on the. Analysis of three hundred clinical charts; Walter Reeve Ramsey and A. G. Alley ... 408
